

CLINIC MANAGER JOB ANNOUNCEMENT

Santa Cruz Community Health (SCCH) is a multi-site, Federally Qualified Health Center (FQHC) serving Santa Cruz County residents. SCCH began as a women's health collective in 1974 with the mission to improve the health of our patients and the community and advocate the feminist goals of social, political, and economic equality. Now, 50 years later, we serve that same mission at three clinic sites: the Santa Cruz Women's Health Center in downtown Santa Cruz serving women and children; the Live Oak Health Center serving everyone; and the Santa Cruz Mountain Health Center providing appropriate and expanded access to care for our patients in the San Lorenzo Valley.

Driven by our commitment to health care as a human right, SCCH is a leading non-profit provider offering comprehensive health services to our patients, regardless of their ability to pay. We have been recognized in the community as a leader in delivering high-quality, innovative care, and we are active in local, state, and national advocacy work that empowers our patients and community to be healthy, happy, and successful.

SCCH has a diverse patient population and an engaging and friendly work environment. Our caring and committed staff works as a team to fulfill our mission so that all our patients have access to quality, whole-person health care.

POSITION SUMMARY:

The Clinic Manager (CM) works under the general direction of the Site Operations Director (SOD). The CM is responsible for ensuring efficient operation of the health center's daily clinical support services, with a strong focus on medical assistant (MA) preparation, training, and support. The CM supports MAs in the provision of high-quality patient care through the Team Based Care model. The CM ensures Care Teams have adequate and well-trained clinical staff via consistent coaching, mentoring, and practical support to the teams. The position directly supervises the team medical assistant (TMA), MA I, MA II, and referral coordinator positions. The CM coordinates with the SOD, other CMs, Site Medical Directors (SMD), Clinical Nurse Manager, and Quality Assurance (QA) and Quality Improvement (QI) staff in the oversight and training of these clinical support staff positions. The CM optimizes the efforts of staff to ensure efficient patient flow and supports the Care Teams in achieving SCCH's goals for quality care, capacity utilization, and patient satisfaction.
