

**FAMILY MEDICINE PHYSICIAN / RESIDENT TEACHING OPPORTUNITY**  
**Mountain Health Center, Ben Lomond**  
**JOB ANNOUNCEMENT**

Santa Cruz Community Health (SCCH) is a multi-site, Federally Qualified Health Center (FQHC) serving Santa Cruz County residents. SCCH began as a women's health collective in 1974 with the mission to improve the health of our patients and the community and advocate the feminist goals of social, political, and economic equality. Now, nearly 50 years later, we serve that same mission at our three clinic sites: the Santa Cruz Women's Health Center in downtown Santa Cruz serving women and children; the East Cliff Family Health Center in Live Oak, serving everyone; and the Santa Cruz Mountain Health Center providing easier and expanded access to care for our patients in the San Lorenzo Valley.

Driven by our commitment to health care as a human right, SCCH is a leading non-profit provider offering comprehensive health services to our patients, regardless of their ability to pay. We have been recognized in the community as a leader in delivering high-quality, innovative care, and we are active in local, state, and national advocacy work that empowers our patients and community to be healthy, happy, and successful.

SCCH has a diverse patient population and an engaging and friendly work environment. Our caring and committed staff works as a team to fulfill our mission so that all our patients have access to quality, whole-person health care.

**POSITION SUMMARY/SCOPE:**

Family Physicians at Santa Cruz Community Health (SCCH) provide comprehensive family medicine services, including preventive care, chronic disease management, pediatric care, reproductive health services, mental health and substance use treatment, in-office procedures, and urgent care services, to a Santa Cruz County patient population rich in racial, ethnic, socioeconomic, gender, and international diversity. SCCH is committed to shaping a medical staff that reflects its patient population; bilingual English/Spanish is strongly preferred.

SCCH Physicians work alongside other medical providers, nurses, medical assistants, mental health providers, chiropractors, Chinese medicine providers, and case managers in an integrated Care Team model. Physicians are clinical leaders of their Care Teams. Physicians meet regularly with their supervising

Site Medical Director and the larger medical department to further their clinical knowledge and skill, discuss patient cases, review performance dashboards, and improve quality and clinical processes.

A new Family Medicine Residency Program is coming to Santa Cruz in July 2024, and SCCH will serve as the residents' continuity clinic. SCCH family physicians will have an opportunity to teach and precept residents, a rare opportunity to engage in academic family medicine in a community clinic setting. SCCH family physicians may teach PA students from Cal State Monterey Bay, and they continually offer clinical support and mentorship to NPs, PAs, and more junior physicians in clinic.

All medical providers conduct some patient care remotely, usually from home, via telephone or video. 80% of an SCCH physician's time is direct patient care, while 20% of their time is allotted for clinical "administrative" time. All medical visits are 20 minutes in length, and physicians are expected to see ten patients per 4-hour shift. SCCH uses eClinicalWorks (eCW) Electronic Health Record system for visit documentation, e-prescribing, and data collection for reporting on clinical quality.

**Classification:** Full-time to Part-time, Salary, Exempt

**Reports to:** Site Medical Director

**Location:** Mountain Health Center, Ben Lomond

**Hours:** Varies, at least one evening per week, Some Saturday shifts

**Compensation:** \$183,646 - \$244,757 per year, DOE
