

PEDIATRIC ADVANCED PRACTICE CLINICIAN (NP/PA) JOB ANNOUNCEMENT

Santa Cruz Community Health (SCCH) is a multi-site, Federally Qualified Health Center (FQHC) serving Santa Cruz County residents. SCCH began as a women's health collective in 1974 with the mission to improve the health of our patients and the community and advocate the feminist goals of social, political, and economic equality. Now, 50 years later, we serve that same mission at our three clinic sites: the Santa Cruz Women's Health Center in downtown Santa Cruz serves women and children; the Live Oak Health Center offers the community an integrated, state-of-the-art health and housing campus in Live Oak, and the Santa Cruz Mountain Health Center provides accessible and expanded access to care for our patients in the San Lorenzo Valley.

Driven by our commitment to health care as a human right, SCCH is a leading non-profit provider offering comprehensive health services to our patients, regardless of their ability to pay. We have been recognized in the community as a leader in delivering high-quality, innovative care, and we are active in local, state, and national advocacy work that empowers our patients and community to be healthy, happy, and successful.

SCCH has a diverse patient population and an engaging and friendly work environment. Our caring and committed staff works as a team to fulfill our mission so that all our patients have access to quality, whole-person health care.

POSITION SUMMARY/SCOPE:

Advanced Practice Clinicians (APCs) at Santa Cruz Community Health (SCCH) provide comprehensive pediatric health services including preventive care, reproductive health services, mental health, substance use treatment, in-office procedures, and urgent care services to a Santa Cruz County patient population rich in racial, ethnic, socioeconomic, gender, and international diversity. SCCH is committed to shaping a medical staff that reflects its patient population; a bilingual English/Spanish and bi-cultural candidate is strongly preferred.

APCs work alongside other medical providers, nurses, medical assistants, mental health providers, chiropractors, Chinese medicine providers, and case managers in an Integrated Care Team model. APCs meet regularly with their supervising Site Medical Director and the larger medical department to further their clinical knowledge and skill, discuss patient cases, review performance dashboards, and improve quality and clinical processes.

All medical providers conduct some patient care remotely, usually from home, via telephone or video. 80% of an APC's time is direct patient care, while 20% of their time is allotted for clinical "administrative" time. All medical visits are 20 minutes in length, and APCs are expected to see ten patients per 4-hour shift. SCCH currently uses eClinicalWorks (eCW) Electronic Health Record system for visit documentation, e-prescribing, and data collection for reporting on clinical quality.

Reports to: Site Medical Director

Classification: Part-time or Full-Time, Salary, Exempt

Compensation: \$120,145 - \$170,165 annual salary range, DOE

Work Location: Mountain Health Center and/or Live Oak Health Center

Normal Work Hours: 20 - 40 hours per week
